

Information for the Daily Telegraph from the Aged Care Quality and Safety Commission

Issued 1 August 2019

The below table lists the residential aged care services in NSW which did not meet at least one Expected Outcome from 1 January 2019 to 30 June 2019 when assessed against the 44 Expected Outcomes of the Accreditation Standards. The relevant decisions and audit reports for these services are published on the Aged Care Quality and Safety Commission's website as per the timeframes in the Aged Care Quality and Safety Commission Rules 2018.

It is important to note that where a non-compliance is identified, the aged care provider is placed on a timetable for improvement and is required to rectify the non-compliance. The Aged Care Quality and Safety Commission closely monitors the service during this period.

At the end of the improvement period, the Commission will undertake a further assessment of performance in order to be satisfied that the necessary improvements have been made.

More information on how the Aged Care Quality and Safety Commission responds to non-compliance can be found here:
